Platform matrix for Arena PLM integrations

The version support listed here is only valid when using the latest integration version. If you have a request for a version not listed, access https://support.xplm.com and file a ticket. If you don't have an account yet, write to support@xplm.com.

Application version support

- Official support: The version is supported by the latest integration. Issues are fixed immediately.
- Limited support: The version is generally supported by the latest integration, but has not been explicitly tested. Issues are fixed only if they occur in the official versions.

Release stage

If listed, the following definitions apply. If no information is given about the release stage for an integration, it is classified as GA by default.

- **GA** (General Availability): The integration is fully developed, thoroughly tested, and officially released.
- **LA** (Limited Availability): The integration is technically mature but not fully developed and tested.
- **SA** (Service Availability): The integration is only available as a project solution.

Windows support

Unless otherwise specified, all integrations support Microsoft Windows 11 (x64).

ECAD domain

Latest integration version and release date: 2.2.7 | 08/2024

Table 1: Supported versions by integration
